## **CHAPTER 1**

### **GENERAL**

#### **AIM**

1. The aim of Master Cadet is to provide an Army Cadet with the theoretical knowledge and practical experience required to participate in corps activities and appointments as an activity leader.

#### **PROGRAM DESIGN**

2. Master Cadet has been designed:
  - a. assuming that the majority of Master Cadet cadets are between 16 and 18 years of age;
  - b. assuming that the majority of cadets have successfully completed Gold Star;
  - c. considering that youth at this age have increased demands on their time outside of the CP such as work, school, sports and other extracurricular activities;
  - d. considering that these cadets are now taking on much more responsibility with regard to the operation of their corps including instruction, planning, organizing and conducting corps activities and working in admin, supply, etc;
  - e. using age-appropriate learning strategies;
  - f. using 30 minutes as a standard period of instruction;
  - g. by providing a programming mix consisting of limited mandatory and more flexible complementary training including on-the-job training where the cadet is assigned duties to aid in the delivery of the local cadet program and independent learning where the cadet seeks out practical opportunities to develop their own knowledge and skills;
  - h. including training which is experiential and skill-based, with a lesser focus on theoretical knowledge; and
  - i. assuming that learning will take place through a combination of programmed periods of instruction, unstructured discussions, teachable moments, and coaching / mentoring opportunities.

#### **PERFORMANCE OBJECTIVES**

3. PO numbers are usually made up of three digits:
  - a. The first digit indicates the Star Level (eg, 'X' represents Green Star to Gold Star, '1' represents Green Star, '2' represents Red Star, etc.).
  - b. The second and third digits indicate the topic area (eg, '00' represents Positive Social Relations for Youth, '01' represents Citizenship, '02' represents Community Service, etc.).
4. EO numbers are usually made up of six digits (eg, EO M103.01):
  - a. The first digit is either an 'M', which indicates mandatory training, or a 'C', which indicates complementary training.
  - b. The second, third and fourth digits indicate the PO as per para 4.

- c. The fifth and sixth digits indicate the specific EO number (eg, EO M103.01 is the first mandatory EO in Green Star leadership).
  - d. Some EOs have a seventh digit, which indicates there is a selection of EOs to choose from (eg, EOs MX01.01A, MX01.01B, MX01.01C, etc. indicates corps can choose any one of these EOs to satisfy the requirements of mandatory Citizenship training).
5. Each PO has been developed to contribute directly to the program aim and participant outcomes detailed in CATO 11-03, *Cadet Program Mandate*. The following are summaries of the POs common to all elements of the CP (allocated POs numbered 501 to 519) and the POs specific to Master Cadet:
- a. **Citizenship.** PO 501 – Reflect Upon What it Means to be a Good Citizen. The aim of this PO is to encourage cadets to be an informed and active citizen in their daily lives.
  - b. **Community Service.** PO 502 – Perform Community Service. The aim of this PO is to encourage cadets to be an active citizen through participation in local community service activities.
  - c. **Leadership.** PO 503 – Lead Cadet Activities. The aim of this PO is to provide cadets with knowledge and skills to practice activity leadership during naturally occurring leadership assignments, structured leadership appointments, and a team project.
  - d. **Personal Fitness and Healthy Living.** PO 504 – Track Participation in Physical Activities. The aim of this PO is to encourage cadets to set and pursue personal goals that contribute to an active lifestyle.
  - e. **General Cadet Knowledge.** PO 507 – Serve in a Army Cadet Corps. The aim of this PO is to provide cadets with information on the opportunities inherent in the Army Cadet Program and prepare the cadet for Master Cadet assessment of learning requirements.
  - f. **Instructional Techniques.** PO 509 – Instruct Cadets. The aim of this PO is to refine the cadets' skills in instructing a 30-minute lesson.
  - g. **Personal Development.** PO 513 – Attend Workshops. The aim of this PO is to provide cadets with professional development to enhance common training skills. Workshops are intended to provide an opportunity for cadets to participate in consolidated training with peers from different corps and squadrons on a variety of topics related primarily to leadership and instructional techniques.
  - h. **Personal Development.** PO 514 – Pursue Individual Learning. The aim of this PO is to provide cadets an opportunity to pursue a Army Cadet Program topic area using a personal learning plan to develop specialist skills. The participation and / or performance requirements are defined through an individual learning plan (ILP) that outlines a series of objectives to be met within the cadet's area of interest. The ILP is developed by cadets in consultation with the Course Officer and Corps Training Officer and approved by the Commanding Officer (CO). The provision of a goal setting opportunity allows cadets to pursue an area of personal interest related to the CP.
  - i. **Field Training.** PO 521 – Investigate Human Impact on Ecosystems. The aim of this PO is to develop in cadets, an appreciation of the importance of ecosystems for the health of the planet.
  - j. **Navigation.** PO 522 – Analyze Map Topography. The aim of this PO is to have cadets combine the knowledge and skills of the Star Program and apply them to a scenario.
  - k. **Outdoor Leadership.** PO 525 – Assess Risk. The aim this PO is to provide cadets with techniques that will assist them to manage risk during an expedition.
  - l. **Canadian Forces and Outdoor Community.** PO 527 – Identify Canadian Army and Outdoor Leadership Educational and Career Opportunities. The aim of this PO is to introduce cadets

to a variety of outdoor recreation, education and career opportunities that take advantage of the knowledge and skills gained and build on interest, through participation in the Army Cadet Program.

### **ON-THE-JOB TRAINING (OJT)**

6. OJT is a structured yet flexible aspect of training intended to provide the cadet with practical opportunities to continue developing knowledge and skills in the areas of leadership and instructional techniques. Infusing OJT into Master Cadet provides the cadet with authentic and challenging leadership and instructional experiences. Master Cadet OJT contributes directly to the achievement of the program aim of developing the attribute of leadership and the participant outcomes of social and cognitive competence. Details regarding Master Cadet OJT are further outlined in Chapter 2 and Chapter 3.

### **TRAINING PREREQUISITES**

7. To participate in Master Cadet, youths must be members of a corps, as specified in A-CR-CCP-950/PT-001, *Queen's Regulations and Orders for the Canadian Cadet Organization*, Article 4.01.

### **USE OF THE QSP**

8. This QSP shall be used as the primary authority governing the development, implementation, conduct and evaluation of the training and standards to qualify a cadet as Master Cadet. This QSP shall also be used by the D Cdt & JCR as the primary reference for validation of Master Cadet qualification training.

9. Master Cadet shall be conducted using this QSP as the training control document in conjunction with A-CR-CCP-705/PF-001, *Royal Canadian Army Cadets Master Cadet Instructional Guides*; A-CR-CCP-900/PF-001, *Canadian Cadet Organization Phase Five / Master Cadet / Proficiency Level Five Workshop Facilitation Guide*; and A-CR-CCP-705/PW-001, *Royal Canadian Army Cadets Master Cadet Logbook*.

## CHAPTER 2

### TRAINING MANAGEMENT DETAILS

#### **RESPONSIBLE AGENCY AND TRAINING ESTABLISHMENTS**

1. The Managing Authority for the Army Cadet Program is the D Cdts & JCR. The conduct of said program is the responsibility of the Regional Cadet Support Units (RCSUs) through authorized Training Establishments (TEs). These TEs include:

- a. Royal Canadian Army Cadet Corps (RCACC); and
- b. Technical TEs, such as:
  - (1) Expedition Centres; and
  - (2) Other zone, detachment or regional TEs as authorized by RCSU Commanding Officers (CO).

#### **TRAINING DETAILS**

2. In accordance with CATOs 11-04, *Cadet Program Outline* and CATO 40-01, *Army Cadet Program Outline*, the Star Level Program is conducted between 1 September and 30 June of each training year through a combination of training sessions and supported training days / weekends. Master Cadet is divided into three compulsory components that must be completed by all cadets. These components are:

- a. **Mandatory Training.** Mandatory training is a scheme of activities that is requisite for Corps, and in some instances, specialized TEs, to conduct and for cadets to accomplish in order to complete the Star level Program. Mandatory training consists of periods allocated to provide cadets with the front-end knowledge they will require to participate in OJT and satisfy the Assessment of Learning Plan (Chapter 3, Annex B). Master Cadet Mandatory Training includes two POs unique to this training level:
  - (1) **PO 513 (Attend Workshops).** The cadet shall attend four tri-elemental workshops planned and conducted by the RCSU to enhance the cadet's skills, primarily but not exclusively, in leadership and / or instructional technique; and
  - (2) **PO 514 (Pursue Individual Learning).** The cadet shall select a specialization component from a Army Cadet Program activity / program area and demonstrate that they have dedicated extra time and effort toward bettering their own skills and / or contributing to that program area.
- b. **Complementary Training.** Complementary training is a scheme of activities that is requisite for the corps to conduct and for cadets to accomplish in order to complete the star level program. These activities complement mandatory activities and form an integral part of the star level program. Complementary packages are designed to be self-directed (self-study) and three periods (90 min) in length. The cadet shall be required to complete a minimum of three complementary packages of which a minimum of one package shall be elementally-specific content (POs numbered 520 or higher). While the packages are self-study, they are not intended to be treated as take home assignments. Instead, cadets shall be given time during a regular training session or day to complete the packages, eg, on a parade night when the cadet is not scheduled to instruct or lead an activity. However, there is nothing precluding a cadet from completing additional self-study packages at any time, should they choose to do so.

- c. **OJT.** OJT is a structured but flexible activity intended to provide the cadet with practical opportunities to continually develop knowledge and skills in the areas of leadership and instructional techniques. OJT is described in more detail in Chapter 2, Annex B.
3. **Duration of Training.** Master Cadet is programmed to be conducted over two training years consisting of sixty sessions (three periods per session) and two training days / one weekend (nine periods per day). Cadets may also participate in training days / weekends in support of other levels of the Star level program. Master Cadet shall commence in September of the year following Gold Star, provided a cadet has qualified Gold Star or been granted a waiver.
4. **Master Cadet Assessment at the CSTC.** Because Master Cadet spans two training years, an opportunity exists for cadets to complete some components of the Assessment of Learning Plan, Chapter 3 Annex B, at a CSTC. Such opportunities are outlined in the Assessment of Learning Plan and are amplified in the individual assessment instructions.
5. **Master Cadet Training Outline.** The distribution of mandatory, complementary and on-the-job training in Master Cadet is as follows:
- a. Mandatory Training:
    - (1) Twenty-one periods of instruction to be conducted during training sessions or days; and
    - (2) Four regionally-facilitated workshops;
  - b. Complementary Training: Nine periods of self-study to be conducted during training sessions or days; and
  - c. All other time available within the thirty sessions and ten days construct of the corps program is allocated to OJT and completion of the different components of the Assessment of Learning Plan, Chapter 3 Annex B.
6. **Period Allocation.** Periods are 30 minutes in duration. A detailed period allocation is located at Chapter 2, Annex A.
7. **Training Days / Weekends:**
- a. The planning and conduct of training days is the responsibility of the corps. Day training shall be conducted at the corps' parade location or, where suitable facilities do not exist at the corps' parade location, within the local community.
  - b. Cadets participating in Master Cadet shall participate in all approved training days / weekends.
  - c. The planning and conducting of PO 513 (Attend Workshops) is the responsibility of the RCSU. Cadets are to be given adequate warning of scheduled workshops to allow them to submit their names for workshops that interest them from a range of options.
  - d. Where support of mandatory or complementary days / weekends is required, requests shall be forwarded to the appropriate RCSU. Refer to CATO 40-01, *Army Cadet Program Outline*, and regional orders for amplified information on support available from RCSUs.
8. **Scheduling.** When planning training, Trg Os are to be familiar with the lesson specifications found in Chapter 4. Some things to consider when developing the annual training schedule are:
- a. the requirement to complete EO M507.01 (Develop a Personalized Schedule) in the first few sessions of the training year to ensure cadets understand the requirements of Master Cadet Program;

- b. the requirement to complete mandatory periods in PO 503 (Lead Cadet Activities) early in the training year to ensure cadets are prepared for the requirements of project management;
- c. the requirement to complete EO M504.01 (Participate in the Cadet Fitness Assessment and Identify Strategies for Improving Personal Physical Fitness) twice; once early in the training year, and again at a later date so cadets can compare their results;
- d. the requirement for the cadet to complete three complementary training self-study packages, with the option to complete more if the cadet desires, to include a minimum of one elemental EO;
- e. the option of grouping cadets together to guide the cadets through a complementary training self-study package, replacing short answer questions with group discussion;
- f. the benefits of completing EO C507.03 (Reflect Upon the Cadet Experience), if selected, near the conclusion of Master Cadet Program;
- g. the requirement to structure OJT time such that the cadet has adequate time to plan and prepare for PO 503 (Lead Cadet Activities) and to complete the requirements of Chapter 3, Annex B (Assessment of Learning Plan – Master Cadet Program);
- h. the logical grouping and sequencing of EOs to take advantage of interrelationships that exist within the instructional material; and
- i. the availability of a technical specialist, if required to conduct the activity.

9. **Training Capacity.** The training capacity is limited to the capacity of the corps to meet supervision requirements in accordance with CATO 13-12, *Supervision of Cadets*, and in some cases to established quotas.

## 10. Training Staff Requirements.

- a. Corps Training Officer (Trg O):

RANK	MOSID	NUMBER	QUALIFICATION
Capt/Lt	00232-02	1	<p>Minimum:</p> <p>Captain Qualification; or CIC Intermediate Officer Qualification</p> <p>Preferred:</p> <p>CIC Training Officer (Corps / Squadron) Qualification; and</p> <p>CIC Occupational Specialty Senior Instructor Qualification</p>

b. Master Cadet Course Officer (MC Crse O):

RANK	MOSID	NUMBER	QUALIFICATION
Lt/2Lt	00232-02	1	<p>Minimum:</p> <p>Basic Officer Qualification; or Basic Military Officer Qualification (CIC Common)</p> <p>Preferred:</p> <p>Military Occupation Course (Army); or CIC Basic Military Officer Qualification (Army)</p>

11. **Technical Specialists.** Technical specialists possess specific specialty qualifications. The number of technical specialists required is influenced by policy documentation specific to the activity (eg, CATOs, *Water Safety Orders*) and by local circumstances, which will also influence the structure for instructional or training support cadre(s). Technical specialists required in support of Master Cadet are:

- a. Regionally-recognized facilitation staff in support of PO 513 (Attend Workshops); and
- b. Specialists as required to mentor cadets undertaking PO 514 (Pursue Individual Learning).

## RESOURCE REQUIREMENTS

12. RCSU COs are responsible for ensuring that required equipment and supplies are available. The resources required in support of mandatory lessons are limited to the equipment used for the Cadet Fitness Assessment and normal presentation aids. Some complementary self-study packages do have specific resource requirements and the Crse O should refer to the associated instructional guides for details.

## TRAINING ADMINISTRATION

13. **Cadet Evaluation.** Details on cadet evaluation are found in Chapter 3.

14. **Reports.** The Trg O should maintain a training file on each cadet to record their progress during the training year. The training file should consist, as a minimum, of a Master Cadet Qualification Record (Chapter 3, Annex B). Training files are temporary documents, which may be disposed of upon migration of the Master Cadet Qualification Record to the DND 2399, *Cadet Personnel Record*.

15. **Master Cadet Logbook.** As Master Cadet is intended to be largely self-directed in nature, A-CR-CCP-705/PW-001, *Royal Canadian Army Cadets Master Cadet Logbook*, is provided to the cadet as a tool to help guide and track their progress. The content of A-CR-CCP-705/PW-001 consists of a summary of pertinent information regarding OJT and requirements of the Assessment of Learning Plan and Assessment Instruments (Chapter 3, Annex B).

## QUALIFICATION

16. The Master Cadet qualification is awarded to cadets upon completion of the requirements specified in Chapter 3.

\*Normal period allocation does not apply. Time requirements are based on activities selected.

\*\*Normal period allocation does not apply. Cadets may attend some or all activities as part of their OJT.

\*\*\*Reflects remaining period allocation from 30 sessions and 10 days construct. Does not reflect OJT that takes place during optional training or RDA / NDA activities.

**ANNEX B**  
**ON-THE-JOB TRAINING (OJT)**

1. For the cadet to be successful in the qualitative assessments related to the performance objectives for leadership and instructional techniques, the cadet must be provided with adequate programmed opportunities to prepare and practice skills.
2. To provide a suitably flexible and dynamic structure to OJT, the traditional period allocation and scheduling employed in previous levels of the program cannot apply. The cadet will participate in authorized sessions and training days / weekends with the cadet corps, within the 30 sessions and 10 day construct of the corps program. All time beyond that required to complete mandatory and complementary training is allocated to OJT and completion of the different components of the Assessment of Learning Plan, Chapter 3, Annex B. In addition, a cadet may be selected to participate in additional OJT opportunities, such as:
  - a. optional training activities,
  - b. regionally conducted RDA / NDA activities, and / or
  - c. technical TE conducted activities.
3. Under the supervision of the Crse O or designated representative, the cadet completing OJT will be responsible for performing a variety of leadership appointments, assignments and projects and instructional responsibilities. Cadets may also be assigned general administrative, support and supervision roles and responsibilities. The unique nature of each cadet corps will dictate the exact OJT experience a cadet will have. At a minimum, the cadet shall be provided with suitable assessment for learning and assessment of learning opportunities as outlined in the Assessment of Learning Plan, Chapter 3, Annex B.
4. The nature of the tasks assigned during OJT should be consistent with the abilities and the areas of interest demonstrated by the cadet. The cadre of senior cadets at a cadet corps should not be viewed as a hierarchy, but as a team of competent young people where each cadet is assigned tasks suited to their particular skills. Involving the cadets in the assigning of tasks and clearly and fairly distributing OJT tasks based on the cadet's time commitment and skills will help to build a strong leadership team at the cadet corps.
5. Cadets participating in OJT are undertaking training to develop leadership and instructional skills. It is unrealistic to expect perfect performance from cadets under training. Mistakes will occur and each should be viewed as a teachable moment to help the cadet learn from the experience and improve in the future. The Crse O has a responsibility to ensure that realistic expectations of performance are communicated and that the cadet feels they are in a safe environment where making a mistake is an accepted part of the learning process.

## CHAPTER 3

### CADET EVALUATION

#### **PURPOSE**

1. This chapter outlines the evaluation requirements for achievement of Master Cadet qualification.

#### **LEARNER EVALUATION**

2. During Master Cadet, a combination of formative and summative evaluation will be used to track cadets' progress.

3. Formative evaluation, or assessment **for** learning, takes place during a phase of instruction and helps cadets and instructors recognize cadets' progress or difficulties in learning. Through formative evaluation, the instructor can: identify when corrective or remedial action is required, plan the next steps in instruction, provide cadets with feedback so they can improve, and reinforce learning to aid the cadet in retaining information. Formative evaluation may also include opportunities for cadets to practice using Performance Checks (PCs) employed in summative evaluation.

4. Summative evaluation, or assessment **of** learning, takes place to determine whether learners have achieved POs or critical EO<sub>s</sub> (those deemed prerequisites to further individual training and education) and is used at the end of a phase of instruction. Details for assessment of learning are located within this chapter.

#### **CADET EVALUATION DESIGN AND DEVELOPMENT**

5. Cadet evaluation is designed and developed incorporating contemporary professional practices from the fields of education and youth development as well as considering best practices in use within the Canadian Cadet Organizations (CCO).

6. Cadet evaluation is designed and developed so that all cadets are capable of achieving all POs and associated EO<sub>s</sub>. To motivate cadets to learn, cadet evaluation builds on success and confidence rather than demotivating cadets with failure and defeat.

7. The following fundamental assessment principles shall guide the conduct of Master Cadet assessment activities:

- a. in advance of training, the instructor shall inform the cadet of POs and EO<sub>s</sub> associated with the qualification;
- b. in advance of training, the instructor shall inform the cadet of the assessment plan for the qualification and provide the cadet with an opportunity to review the applicable forms used in assessment;
- c. assessment information shall be shared between the instructor and the cadet and used to revise and guide instruction and learning;
- d. the instructor shall provide feedback that is descriptive, constructive, frequent, and timely; helping the cadet to identify strengths and address areas requiring improvement;
- e. the cadet shall be actively, consistently and effectively involved in assessment; including learning to manage their own learning through the skills of self-assessment; and
- f. the cadet shall be encouraged to actively, consistently and effectively communicate with others about their learning progress.

## CP DEVELOPMENTAL PERIODS (DPs)

8. The CP is designed across adolescent DPs adapted to suit the CP target population. Outlined in each DP are specific philosophies and approaches to learning and assessment that influence design, development and conduct of cadet training and assessment.

9. A DP is a time frame, during a cadet's progression through the CP, in which the cadet participates in training and is provided opportunities to develop desired knowledge, skills and attitudes that support the aims of the CP and contribute to the achievement of the CP outcomes.

10. Progressive training levels, and associated learning objectives, distinguish each DP; ensuring training is relevant, achievable and age-appropriate for the cadet population. DPs and associated training levels are designed to be completed in a sequential manner and are also fluid, which allows a cadet to progress to the next training level or DP while still working on completion of learning objectives from the previous level or DP.

11. The design and development of cadet training and evaluation is based on the basic overview of the DP characteristics located at Chapter 3, Annex A.

## CADET ASSESSMENT OF LEARNING PLAN

12. The Assessment of Learning Plan located at Chapter 3, Annex B, provides an overall strategy for using assessment activities to determine if the cadet meets the requirements for Master Cadet qualification. The assessment of learning plan will:

- a. provide an outline of each assessment of learning activity including its purpose, when it will occur, and details the assessment instrument(s) used to support cadet evaluation;
- b. identify the learning target(s) associated with the PO and / or EO being assessed, to include:
  - (1) **Knowledge Mastery.** The facts, concepts and theory a cadet needs to know;
  - (2) **Reasoning Proficiency.** A cadet uses what they know to solve a problem, make a decision, make a plan, think critically, set goals, or self-assess;
  - (3) **Skills.** Performance demonstration; where the cadet demonstrates their ability to perform a skill. To be assessed, these performances must be demonstrated by the cadet and observed by an assessor;
  - (4) **Ability to Create Products.** A cadet uses their knowledge, reasoning and skills to create a concrete product; and / or
  - (5) **Attitudinal / Dispositional Changes.** A cadet's attitude about learning, safety, conducts, etc. Targets in this realm reflect attitude and feeling. They represent important affective goals we hold for a cadet as a by-product of their CP experience, and as such are not generally assessed for the purpose of attaining a qualification; and
- c. identify the assessment method(s) that best matches PO and / or EO learning targets, to include:
  - (1) **Selected Response.** A cadet selects the correct or best response from a list provided. Formats include multiple choice, true / false, matching, short answer, and fill-in questions. Although short answer and fill-in-the-blank questions do require cadets to generate an answer, they call for a very brief answer that is counted as right or wrong, so these have been included in the selected response category;

- (2) **Extended Written Response.** A cadet is required to construct a written answer in response to a question or task rather than select one from a list. An extended written response is one that is at least several sentences in length;
- (3) **Performance Assessment.** This assessment method is based on observation and judgment; the performance or product is observed and determination is made as to its quality; and / or
- (4) **Personal Communication.** Gathering information about a cadet through personal communication, learning is assessed through interpersonal interaction with the cadet.

## **ASSESSMENT INSTRUMENTS**

13. Specific assessment instruments have been designed to support each assessment activity within the assessment of learning plan. These are meant to standardize assessment activities and cadet evaluation for all cadets attempting the qualification. Assessment instruments are located at Chapter 3, Annex B.

## **OJT ASSESSMENT FOR LEARNING**

14. There is no formal assessment tool associated with OJT. However, the assessment instruments used for assessment of learning for PO 503 (Lead Cadet Activities) and PO 509 (Instruct Cadets) may be used for assessment for learning during OJT. Additionally, the Crse O is expected to monitor the progress of the cadet as outlined in Chapter 3 to include regular feedback on OJT performance. When providing feedback on OJT performance review with the cadet the following:

- a. the tasks the cadet was assigned to complete since the last feedback session;
- b. the cadet's feedback on how they felt they did in the accomplishment of those tasks;
- c. the cadet's performance in completing the tasks assigned, identifying one or two areas where the cadet could improve and several areas where the cadet has done well or shown improvement;
- d. the cadet's attendance and the cadet's schedule over the next reporting period; and
- e. the cadet's short- and long-term goals with the cadet corps.

15. The cadet shall contribute to the feedback session by completing a self-assessment of their performance in their various leadership and instructional roles since their last feedback session and being prepared to discuss their development and experience.

16. To aid in continuity between feedback sessions, the Crse O should maintain notes on the progress of the cadet and areas identified where the cadet could improve. It is recommended that feedback sessions be conducted at a minimum of once every two months.

## **APPROVAL OF ACTIVITY PLANS**

17. Unique to Master Cadet, the cadet will have to complete some requirements of the Assessment of Learning Plan, Chapter 3, Annex B, as self-directed performance outside of normal authorized cadet activities. In such cases, the Crse O and cadet shall agree on an activity plan to be followed. The Corps Commanding Officer shall be the approving authority for all activity plans.

## **MONITORING CADET PROGRESS**

18. Cadets must meet the standard of behaviour and conduct expected from all cadets. During cadet interviews and personal counselling, the Master Cadet Course Officer should adopt a proactive approach towards difficulties.

19. The Master Cadet Course Officer should meet formally and informally with cadets throughout the training year to discuss the cadet's progress towards Master Cadet qualification (assessment for learning) and to provide feedback on overall performance. The Master Cadet Course Officer shall meet with each cadet at the end of the training year to review the completed *Master Cadet Qualification Record*. Guidelines for conducting cadet interviews are located at Chapter 3, Annex D.

20. Frequent absences from mandatory and complementary training that could result in the cadet not meeting the minimum standard for Master Cadet qualification must be addressed in accordance with CATO 15-22, *Conduct and Discipline – Cadets*.

## **TRAINING COUNSELLING SESSION**

21. A training counselling session is used when a cadet is having difficulties progressing and an intervention is required to set goals for corrective action and / or remedial instruction. The Trg O is responsible for conducting training counselling sessions, except in the case of cadet rank promotions for which the CO is responsible. Guidelines for conducting training counselling sessions are located at Annex E and the Training Counselling Session Form is located at Annex E, Appendix 1.

## **ADDITIONAL ASSESSMENT OF LEARNING ACTIVITIES**

22. No additional cadet evaluations, eg, theory tests or performance checks, are to be used to determine Master Cadet qualification eligibility. Therefore, these national standards are not to be supplemented with additional regional and / or local standards.

## **MASTER CADET QUALIFICATION STANDARD**

23. The minimum standard for Master Cadet qualification is:

- a. Gold Star qualified;
- b. 60 percent overall attendance in all scheduled mandatory and complementary training as calculated by the corps; and
- c. successful completion of each PO as outlined in the Master Cadet Qualification Record located at Chapter 3, Annex C.

24. There is no minimum or maximum timeframe in which the cadet must achieve Master Cadet. Normally a cadet will be capable of achieving Master Cadet in less than the two years allocated to the training level and may be awarded the Master Cadet qualification at that time. However, there shall be no penalty assigned to a cadet who requires additional time to complete Master Cadet.

## **CADETS NOT MEETING THE QUALIFICATION STANDARD**

25. A cadet who does not meet the qualification standard for any PO shall be given a reasonable opportunity to achieve the standard. Unless otherwise specified in the assessment of learning plan and associated assessment instruments, there is no limit to the number of additional opportunities that may be afforded to the cadet, provided it is within the resources of the corps.

26. Where a cadet requires more than two training years to achieve the qualification standard, the CO may grant additional training time to the cadet. All POs achieved up to that point shall continue to be recognized. In such a case, the attendance requirement shall be calculated based on the most recent 12 months of attendance. Cadets may not receive a waiver for any Master Cadet PO requirements.

**RECORDING AND REPORTING CADET ACHIEVEMENT**

27. The progress of each cadet shall be recorded on the *Master Cadet Qualification Record*, located at Chapter 3, Annex C, which is also used to determine successful completion of Master Cadet qualification. COs are responsible for ensuring the results are recorded on each cadet's DND 2399, *Cadet Personnel Record*.

**MASTER CADET CERTIFICATE OF QUALIFICATION**

28. The CF 558, *Cadet Certificate of Qualification* (NSN 7530-21-870-7685), shall be awarded to each cadet upon successful completion of the Master Cadet qualification.

**UPGRADING OF PROFICIENCY ACHIEVEMENT**

29. The timeframe for completion of Master Cadet is flexible, allowing a cadet who has qualified Master Cadet the option to pursue the upgrading of any assessment result at any time following achievement of the qualification standard. Therefore, as an example, subsequent to the awarding of the Master Cadet qualification Cadet Certificate of Qualification, a cadet could choose to pursue enhanced proficiency in a PO in which they had previously achieved baseline proficiency. If successful, the higher standard would replace the previous achievement on the *Master Cadet Qualification Record*.

## CHAPTER 4

### SECTION 1 PERFORMANCE OBJECTIVES AND TRAINING PLAN

#### **PURPOSE**

1. The purpose of this chapter is to outline the specific POs associated with the Master Cadet qualification.

#### **PERFORMANCE OBJECTIVES (POs)**

2. POs are a description of the cadet's abilities after training is complete. They include a description, in performance terms, of what the individual must do, the conditions under which the performance must be completed, and the standard to which the performance must conform. These three elements are respectively defined as:

- a. a performance statement;
- b. a conditions statement; and
- c. a standard.

3. This chapter also details the training plan that is designed to assist the cadet to achieve the required POs using Enabling Objectives and Lesson Specifications that are the key reference used for development of A-CR-CCP-705/PF-001, *Master Cadet Instructional Guides*.

#### **ENABLING OBJECTIVES (EOs)**

4. EO<sub>s</sub> are a description of the cadet's abilities after each unit of learning is complete and constitute a major step toward achieving the PO. EO<sub>s</sub> may correspond to the major components identified in the first round of deconstructing POs or they may result from grouping several related components. They are composed of three essential parts:

- a. a performance statement;
- b. a conditions statement; and
- c. a standard.

#### **LESSON SPECIFICATIONS (LSs)**

5. LSs describe the instructional strategy to be applied to each EO and include:

- a. supporting teaching points;
- b. references;
- c. learning activities (methods, media and environment);
- d. estimated timings;
- e. assessment directions; and
- f. any remarks that further clarify the design intent.

## **ASSESSMENT FOR LEARNING**

6. Formative evaluation, or assessment for learning, takes place during a phase of instruction and helps cadets and instructors recognize progress or lapses in learning. These assessments can also provide cadets with opportunities to practice PCs. This helps to diagnose cadet needs, eg, corrective action or remedial instruction, plan the next steps in instruction and provide cadets with feedback they can use to improve. It also reinforces learning so that it can be retained longer. Details for Master Cadet assessment for learning are outlined within the applicable lesson specifications located at Chapter 4.

METHOD(S)	APPLICATIONS	ADVANTAGES	DISADVANTAGES
<b>BEHAVIOUR MODELING</b>  Under development			
<b>CASE STUDY</b>  Cadets are given a written problem, situation or scenario, to which they respond either individually or as a group in order to achieve a performance objective. The problem situation or scenario should match the experience level of the cadets and they should be given enough time either before or during the instructional period to analyze it. Responses to the case should be recorded under four headings: Facts, Assumptions, Problems and Solutions	1. Learning principles, attitudes and concepts.	1. Effective application of teaching principles instead of "preaching". 2. Cadets can help each other learn. 3. High energy and perfect demonstrations. 4. Can be easily related to a real life situation in the past and for future applications.	1. Must be well organized and facilitated in order to ensure learning takes place.
<b>DEMONSTRATION AND PERFORMANCE</b>  Cadets observe the instructor performing the task in a demonstration, and rehearse it under the supervision of the instructor. A good example of this is drill instruction, where cadets are shown a movement and given the opportunity to practice and perform it.			
<b>Demonstration Method</b>  A method of instruction where the instructor, by actually performing an operation or doing a job, shows the cadet what to do, how to do it and through explanations brings out why, where and when it is done.	<b>Demonstration Method</b> <ul style="list-style-type: none"> <li>1. To teach manipulative hands-on operations or procedures.</li> <li>2. To teach troubleshooting.</li> <li>3. To illustrate principles.</li> <li>4. To teach operation or functioning of equipment.</li> <li>5. To teach teamwork.</li> <li>6. To set standards of workmanship.</li> <li>7. To teach safety procedures.</li> </ul>	<b>Demonstration Method</b> <ul style="list-style-type: none"> <li>1. Minimizes damage and waste.</li> <li>2. Saves time.</li> <li>3. Can be presented to large groups.</li> </ul>	<b>Demonstration Method</b> <ul style="list-style-type: none"> <li>1. Requires careful preparation and rehearsal.</li> <li>2. Requires special classroom arrangements.</li> <li>3. Requires equipment and aids.</li> </ul>

<b>FIELD TRIP</b>  Theoretical knowledge is reinforced through participation in an activity in a real-life setting. Prior planning helps to ensure all pre-training and safety standards are met. Field trip activities are planned and carried out to achieve clear instructional objectives that are understood by the cadets. Examples can include trips to areas of local interest, flying / gliding, hikes or boat trips.	<ul style="list-style-type: none"> <li>1. Awareness of historical situations.</li> <li>2. Can be used in conjunction with many other instructional methods.</li> <li>3. To introduce / illustrate and confirm topics.</li> </ul>	<ul style="list-style-type: none"> <li>1. Immerse cadets in a specific environment.</li> </ul>	<ul style="list-style-type: none"> <li>1. May be difficult to control.</li> <li>2. Needs much organization and preparation.</li> <li>3. May have cost involved.</li> </ul>
<b>GAME</b>  Games are used with one or more participants to practice skills, apply strategies and enhance teams. It is critical that the game supports learning through the provision of a challenging activity that allows for the skill practice or knowledge confirmation. Games are a fun and interesting way to introduce a topic, expand cadets' understanding knowledge of topic or review material.	<ul style="list-style-type: none"> <li>1. Practical situations.</li> <li>2. Discovery of concepts and principles.</li> <li>3. Review and confirmation.</li> <li>4. May be difficult to providing instructor feedback.</li> </ul>
<b>GROUP DISCUSSION</b>  Cadets discuss issues, share knowledge, opinions and feelings about a topic in small groups to a specific goal. The instructor's questioning is flexible and minimal, and aims at encouraging cadets to explore their own experiences and opinions through peer interaction.	<ul style="list-style-type: none"> <li>1. To develop imaginative solutions to problems.</li> <li>2. To stimulate thinking and interest and to secure cadet participation.</li> <li>3. To emphasize main teaching points.</li> <li>4. To summarize, clarify points or review.</li> </ul>	<ul style="list-style-type: none"> <li>1. Increases cadet interest.</li> <li>2. Increases cadet acceptance and commitment.</li> <li>3. <b>GUIDED DISCUSSION</b> <p>Cadets are guided to reach performance objectives by drawing out their opinions, knowledge, experience and capabilities through a series of open ended lead-off questions, responses and follow-up questions. The instructor summarizes throughout and concludes effectively to ensure the performance objective is met.</p>	<ul style="list-style-type: none"> <li>1. Takes time to prepare.</li> <li>2. The instructor must ensure that the cadets stay on the subject.</li> <li>3. Off-topic questions must be handled with tact.</li> </ul>
<b>IN-CLASS ACTIVITY</b> <p>In-class activities encompass a wide variety of activity-based learning opportunities that can be used to reinforce instructional topics or to introduce cadets to new experiences. In-class activities should provoke thought and stimulate interest among cadets, while maintaining relevance to the performance objectives. Examples of these activities include learning stations, videos, brainstorming / debating.</p>	<ul style="list-style-type: none"> <li>1. To reinforce instructional topics.</li> <li>2. <b>INTERACTIVE LECTURE</b> <p>The instructor-driven methodology combines both lecture and interaction to meet lesson objectives. Lecture portions of the lesson are offset with relevant activities such as videos with discussion, games to confirm and completion of handouts.</p>	<ul style="list-style-type: none"> <li>1. Requires a high level of concentration from the cadets.</li> </ul>

<b>LECTURE</b>  This is a formal or semi-formal discourse in which the instructor presents a series of events, facts, principles, explores a problem or explains relationships.	<ol style="list-style-type: none"> <li>1. To orient cadets to the subject.</li> <li>2. To introduce a subject.</li> <li>3. To give instruction on procedures.</li> <li>4. To present basic material.</li> <li>5. Should have a clear introduction and conclusion.</li> <li>2. Cadets may be passive and uninvolved.</li> </ol>
<b>ON-THE JOB TRAINING (OJT)</b>  OJT prepares cadets to perform a job within the cadet program. Cadets learn job related behaviours / skills and the practice them through performance on the job. An instructor facilitates learning and coaches each cadet through the process. All cadets have the opportunity to reflect and provide feedback on their performance. Besides learning the job skills, cadets practice and refine peer and self-evaluation skills and skills in providing feedback.	<ol style="list-style-type: none"> <li>1. Appropriate for learning leadership positions and learning supervisory responsibilities.</li> <li>2. Learn to perform numerous tasks and responsibilities that would otherwise be listed.</li> </ol>	<ol style="list-style-type: none"> <li>1. Gives ownership to the learner to learn required skills.</li> <li>2. Potential for a rewarding a situation.</li> <li>3. Challenging.</li> </ol>	<ol style="list-style-type: none"> <li>1. Requires an appropriate debriefing.</li> </ol>
<b>PEER LEARNING</b>  Cadets in the same class teach each other. This allows cadets to learn from each other while also developing coaching, feedback and instructional skills.	<ol style="list-style-type: none"> <li>1. Review.</li> <li>2. Areas of expertise.</li> <li>3. Practicing instructional techniques.</li> <li>4. Teenagers can be especially receptive to learning from their peer group.</li> <li>2. By instructing, cadets should master the material they are presenting.</li> <li>3. Offers good opportunity to evaluate instructional techniques and leadership.</li> </ol>	<ol style="list-style-type: none"> <li>1. If cadets do not master the material presented or lack the instructional skills, the class may not be successful.</li> <li>2. A good debriefing is often required to ensure the learning is correct and emphasis was on the right objectives.</li> </ol>
<b>PRACTICAL ACTIVITY</b>  Practical activities encompass a wide variety of activity-based learning opportunities that can be used to reinforce and practice instructional topics or to introduce cadets to new experiences. Practical activities should stimulate interest among cadets and encourage their participation, while maintaining relevance to the performance objectives.	<ol style="list-style-type: none"> <li>1. <b>PROBLEM-BASED LEARNING</b>  Cadets analyse a problem, apply the steps in the problem solving method and work toward solving the problem in small groups. Problem-based learning requires cadets to participate and interact with each other while developing critical thinking skills. Instructors choose problem that stimulate thought, reinforce learning and relate to the cadets' interest and needs. Throughout the exercise, instructors pose thought-provoking questions and guide cadets without influencing their decisions.	<ul style="list-style-type: none"> <li>1. Review.</li> <li>2. In practical situations such as leadership development, parade appointments, etc.</li> </ul>	<ul style="list-style-type: none"> <li>1. Encourage participation by cadets.</li> <li>2. Critical thinking skills are required.</li> <li>2. Broad knowledge of the subject matter is required.</li> </ul>
<b>ROLE PLAY</b>  Cadets are assigned roles requiring them to interact with others in responding to various realistic situations. The instructor identifies the purpose of the role-play, provides the cadets with enough background information to help them accurately play their assigned role, and motivates them to become more fully involved in the activity. De-brief after the role-play is essential to connect the activity with the PO / EO.	<ul style="list-style-type: none"> <li>1. Skills associated with social systems or human interactions; practical situations eg. Positive Social Relations for Youth, discipline issues, behaviour on the range, leadership, instructional techniques.</li> <li>2. Experience is developed in a supportive environment.</li> <li>3. Can be very versatile depending on application eg, introduce a topic, mid-stage learning or as confirmation.</li> </ul>	<ul style="list-style-type: none"> <li>1. Participants can be easily side-tracked, need for good preparation and controls must be set appropriately.</li> <li>2. Competence, experience and prepared instructors required.</li> </ul>
<b>SELF-STUDY</b>  In a self-study method, the instructor provides materials and instructions to the cadets, then they learn the topic independently (learning at their own pace) often using a prepared package of information, written content, computer based learning, using videos, tapes (CDs) or models. Self-study does not need to be complex or in-depth; instructors can include self-study components as part of an interactive lesson or as a method on its own.	<ul style="list-style-type: none"> <li>1. To provide remedial instruction.</li> <li>2. To provide make-up instruction.</li> <li>3. To maintain previously learned skills, which are not performed frequently enough.</li> <li>4. Allows for very personalized feedback if present.</li> </ul>	<ul style="list-style-type: none"> <li>1. Requires local or commercial preparation.</li> <li>2. Requires lengthy programmer training.</li> <li>3. Increases expenses.</li> <li>4. Requires considerable lead times.</li> <li>5. Poses administrative problems.</li> <li>6. Requires follow-up, feedback or evaluation in order to ensure learning is up to standard.</li> <li>7. Requires a great deal of discipline from the learner.</li> </ul>

<b>SEMINAR METHOD</b>  This is a tutorial arrangement involving the instructor and group, rather than instructor and individual.	<ul style="list-style-type: none"> <li>1. To provide general guidance for group working on an advanced study or research project.</li> <li>2. To exchange information on techniques and approaches being explored by members of a study or research groups.</li> <li>3. Poses evolution problems.</li> <li>3. Is more costly than most other methods.</li> </ul>
<b>SIMULATION</b>  Simulation is a realistic representation of a situation (that cannot take place in the real environment) used to teach performance objectives without risk or complication. Cadets are active participants in the learning process. Instructor feedback is critical for learning. Many activities can be simulated (eg, first aid, leadership principles, dry firing).	1. Attitudinal objectives.	<ul style="list-style-type: none"> <li>1. Cadets acquired the skills to conduct activities in the real environment.</li> <li>2. Cadets receive critical feedback.</li> <li>3. Cadets may be self-conscious.</li> </ul>
<b>TUTORIAL</b>  The instructor works directly with the cadets to ensure the successful achievements of the learning objectives. This is a useful way to teach highly complex skills, knowledge and procedures, or to provided remedial training to cadets. This method focuses on the cadet's needs and the individualized assistance provided it motivating for the cadet. Tutorials are easily adaptable to the cadet's learning pace and style.	<ul style="list-style-type: none"> <li>1. To teach highly complex skills and operations or operations involving danger or expensive equipment.</li> <li>2. To provided individualized remedial assistance.</li> <li>3.
